

Dear Parents & Guardians,

You may have noticed that your child(ren) came home with all of their books this afternoon. This DOES NOT mean that we will be closing tomorrow. We are merely exercising caution in the event we are instructed to close at the last minute. We want to be sure that our students have what they need to be able to fully participate in virtual learning if and when the time comes.

Again, at this time WE WILL BE OPEN TOMORROW unless we are advised to the contrary later this evening. We are asking the students to please bring anything that they may need back and forth to school until further notice, just to be on the safe side.

We have no additional information regarding when or if the school will close. We will be updating you as frequently as possible. Our main concern is for the safety and education of our students.

Thank you and have a good afternoon.

Ms. Annette Pioppo

Interim Principal
